

Dear valued resident:

As you know, there are many benefits to recycling. Recycling reduces greenhouse gas emissions, preserves natural resources, keeps material out of landfills and can reduce your overall waste disposal cost. However, recycling is only effective when the material collected is reusable. Trash in the recycling makes the materials dirty and unusable.

Follow these 3 simple rules:

1. Recycle all plastic bottles, cans, paper and cardboard
2. Keep Items Clean & Dry
3. No Plastic Bags. No Bagged recyclables

Please help ensure only clean and loose recyclables are in your exterior container by following the steps below:

1. Ensure they know that all recyclables should be put in the containers loose (no bags and no bagged recyclables)
2. Clearly label internal recycling and trash containers
3. Clearly label exterior containers
4. Pair both your internal and external recycling and trash containers to promote clean material

Please refer to the following page to assist you in successfully recycling material.

\*Restrictions Apply \*\*Additional Cost

**SOME MATERIALS MAY NOT BE RECYCLABLE DUE TO MARKET CONDITIONS.**

**Aluminum Cans**

Latas de aluminio

**Plastic Bottles**

Botellas de plástico
